

Nuovo sistema per porte pieghevoli modello Pratico

New system for folding doors Pratico model

Nouveau système pour portes pliables modèle Pratico

Neues System für faltbare Türen Modell Pratico

Nuevo sistema para puertas plegables modelo Pratico

Il nuovo sistema per porte pieghevoli modello “PRATICO” ha il vantaggio di usufruire dei semilavorati degli stipiti e delle porte standard realizzando semplici modifiche.

The new folding-door system, “PRATICO” profits from half-finished door posts and standard doors, with a few changes only.

Le nouveau système pour portes pliantes modèle “PRATICO” présente l’avantage d’utiliser des chambranles semi-travaillées et des portes standard afin de faire le moins possible de

modifications.

Das neue System für faltbare Türen Modell “PRATICO” hat den Vorteil das Halbfertigerzeugnis der Gewände und der Standardtüren mit einfachen Veränderungen zu verwenden.

El nuevo sistema para puertas correderas modelo “PRÁCTICO” tiene la ventaja de utilizar los semiacabados de los marcos y de las puertas estándar realizando sencillas modificaciones.

Art.1990

2/3

1/3

2

1) Eseguire le lavorazioni indicate
2) Per realizzare la porta pieghevole è possibile tagliare la porta battente, inserendo poi nelle parti "Z" i masselli, successivamente bordati e fresati per l'inserimento delle cerniere, nel punto "P" fresare la battuta superiore

1) Carry out the specified processing
2) As to make a folding door, it is possible to cut an hinged door, fitting the solid blocs in the "Z" parts, then bordered and cut to fit the hinges, in the "P" point, cut the upper door closing.

1) Réaliser les usinages précisés
2) Afin de réaliser une porte pliante, il faut couper une porte battente par l'introduction dans les éléments "Z" les blocs en bois massif, par la suite bordés et fraisés afin de fixer les charnières, au niveau du point "P", fraisier la fermeture supérieure

1) Die hier angeführten Arbeitsdurchgänge durchführen.
2) Um eine faltbare Tür herzustellen ist es möglich den Türflügel zu schneiden und daraufhin in die "Z" Bereiche die Kernhölzer einzufügen. Danach müssen diese gebohrt und gefräst, für die Einführung der Türgelenke, werden; auf dem Punkt "P" den oberen Türflügel fräsen.

1) Realizar los trabajos indicados
2) Para realizar la puerta plegable es posible cortar la puerta batiente, insertando luego en las partes "Z" los macizos, sucesivamente rebordeados y fresados para insertar las bisagras, en el punto "P" fresar el batiente superior

Utilizzare cerniere a scomparsa.

È possibile inserire qualsiasi tipo di maniglia

Use disappearing hinges.

It is possible to fit any handle.

Utiliser des charnières invisibles. Il est possible

d'insérer n'importe quel type de poignée.

Versteckte Gelenke für die Tür verwenden; es ist

möglich jegliche Türklinke zu verwenden.

Utilizar bisagra plegable. Se puede insertar

cualquier tipo de manija.
